

The Federal Communications Commission

Dear The Federal Communications Commission,

Earlier in our country's history a bunch of patriots in Boston rebelled over excess government taxes. They staged the Boston Tea Party.

This government is getting to that point. Everything is taxed. Why doesn't the government just curb their spending? Live within a budget like we do.

I'm a retired senior living on a fixed income. I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Nancy Ray
